

BROOK TAVERNER

SINCE 1912

World leader in the supply of corporate clothing

2020/21

Working, together.

BROOK TAVERNER

SINCE 1912

We believe in working, together.

Look your best with Brook Taverner

Confident together.

Trusted as people, valued as suppliers.

What does that mean for you? It means we speak your language, are easy to work with and hold trust at the heart of our relationships. As we operate on a strict B2B basis, our collections are available exclusively via a network of corporate clothing specialists.

Performing together.

If you look good, we look good.

Performance starts with a good quality fabric. As seasoned tailors, we know what combinations work and, maybe more crucially, which don't. Our extensive range of garment fits, styles, colours and fabric finishes are designed to meet the most demanding of applications. Our investment in stock and variety is your guarantee to a successful uniform rollout.

Progressing together.

We have been building partnerships with our customers for over 100 years.

We don't stand still at Brook Taverner; we are progressive in business. We invest to keep our ranges current and work hard to preserve longevity of styles. If we keep ahead, then you keep ahead.

Responsible together.

We are committed to running a responsible, environmentally respectful and sustainable business, and we will endeavour to continuously improve our environmental performance where possible.

You can find out more by visiting us online at www.brooktaverner.com

All Brook Taverner Collections guarantee exceptional performance in many market sectors, including:

SUSTAINABILITY

...IS AT THE HEART OF EVERYTHING WE DO

Brook Taverner is committed to operating a responsible, environmentally respectful and sustainable business, so you can be confident that not only will your team look good, they will feel good too.

We endeavour to continuously improve our environmental performance where possible and are proud to work with suppliers who share our views and values.

We are proud to say that all of the fabrics used when manufacturing our clothing have been certified according to STANDARD 100 by OEKO-TEX®. This test is performed uniformly around the world by independent OEKO-TEX® institutes and ensures that there are no harmful substances added during any steps of textile process, from the thread to fabric production.

STeP by OEKO-TEX® is a key certification in our supply chain. This ensures fabric mills operate in a safe, transparent and environmentally respectful manner, specifically demonstrating excellent levels of compliance in the following 6 areas: chemicals management; environmental performance; environmental management; social responsibility, quality management; and health protection & safety at work. Currently 2 of our Collections qualify for STeP accreditation. It is our aim to have this certification for a further 4 Collections by mid 2020.

Committing to the ETI Base Code helps us to guarantee that the products we manufacture have not been made at the expense of workers in global supply chains. We ensure that all elements of our supply chain strictly follow the ETI Base Code, which encompasses a breadth of international labour rights, such as working hours, health and safety, freedom of association and wages.

We work closely with Sedex®, one of the world's leading ethical service providers, to continuously better manage and improve our ethical performance across our global supply chain. This includes working together to improve working conditions, drive responsible sourcing improvements and implement measures to protect the environment. Frequent factory audits ensure all the above is adhered to.

BROOK TAVERNER SUSTAINABILITY DAY IN, DAY OUT

Very Durable - Martindale
Test > 80,000 rubs

All Brook Taverner fabrics are designed and tested both in the laboratory and in real life environments. This is your guarantee that your corporate clothing will perform in today's demanding workplace, offer longevity of life and continue to look great long after the roll-out.

NANO PROTECTED
FABRICS

Certain Brook Taverner Collections benefit from a Teflon or Nano-Protection coating. Not only do these repel water and other liquids and add to the durability of the garments, they also give long lasting protection from dust, dirt and stains. This means these Collections will need to be washed less frequently, using less energy and water during the garment's lifetime.

All Brook Taverner Collections are machine washable - which saves time, money and the planet, as machine washability means there is no need to have garments or suits dry cleaned.

45 Recycled bottles
per suit

2020 sees the launch of new styles in certain Collections which will use recycled polyester in the fabric blend. This move, which will continue throughout those Collections in the future, sees up to 45 plastic bottles per suit saved from landfill! We see this as a significant innovative step and a major part of our sustainability commitment moving forward.

We are committed to running a sustainable business on every level. Recent achievements at our head office include:

- Upgrade of our lighting to low voltage LED bulbs
- Installation of a highly efficient Biomass wood chip boiler
- Implementation of plastic, metal and general waste recycling programs
- A minimum of 66% of the cardboard (and up to 100% in some cases) used in our UK-made packaging is made from recycled material! The cardboard can also be recycled again!
- The protective packaging on our hanging garments and shirts and blouses is made from recycled material and can be recycled after use
- Every clothes hanger used in our Collections is made from recycled material, and if you don't reuse it, can be recycled again!

Further information on our CSR & Environmental Policies can be found on our website www.brooktaverner.com

Half hem width at size 12R = 22cm

45 Recycled bottles used per suit

2020 sees the launch of the EDITION jacket and MERCHANT skirt, the first styles in the Performance Collection to use RECYCLED POLYESTER in the fabric blend. As part of our commitment to sustainable sourcing and manufacturing, this simple fabric change diverts 45 BOTTLES PER SUIT from landfill, reducing soil contamination and air & water pollution. What's more, recycled polyester requires less energy in production than virgin polyester. These styles are also the first to benefit from the addition of LYCRA to the fabric blend, which will increase the fabric stretch to 15% and enhance wearer comfort even more. Recycled polyester and Lycra will be rolled out throughout the entire PERFORMANCE COLLECTION during 2020.

ROSEWOOD JACKET SLIM FIT

Black

2356 A / B / C / D

Centre back length at size 12R = 50cm

2020 sees the launch of the VEGA jacket, the first style in the Eclipse Collection to use RECYCLED POLYESTER in the fabric blend. As part of our commitment to sustainable sourcing and manufacturing, this simple fabric change diverts 15 BOTTLES PER SUIT from landfill, reducing soil contamination and air & water pollution. What's more, recycled polyester requires less energy in production than virgin polyester. Recycled polyester will be rolled out throughout the entire ECLIPSE COLLECTION during 2020.

15 Recycled bottles used per suit

The Brook Taverner sizing guide is based on tailored fit garments.
Classic fit garments in the same size will fit more generously, with more ease.
Slim fit garments in the same size will fit closer to the body, with less ease.
The information provided is intended as a guide only and should not replace a full sizing exercise.

BROOK TAVERNER

SINCE 1912

MEN'S SIZING GUIDE

This chart refers to BODY MEASUREMENTS.
Garments will measure slightly larger to allow for movement and drape.
